PRESENTATION

Web 3.0 or the Metaverse?

- Web 3.0 or the Metaverse? Deciphering the future of the internet (April 12th)

- There is a lot of misinformation out there about what the Metaverse is and what it isn't.. This lesson will be dedicated to explaining what the Metaverse is, what it isn't and what it seems to be becoming.

Guest Speaker:

- Pedro Cruz @Metaversedreams (Twitter)

NFTs and Digital Ownership

- Owning your data: NFTs and Digital Ownership (April 19th)

NFTs are smart contracts that can be associated with literally anything: from JPEGs to houses and cars, but most interestingly to movies, music files and even video game characters. Will this affect the way we interact with digital objects? If so, what are the possibilities?

Instructor: Shirley McPhaul

PRESENTATION

DAOs: A New Way of Governance (English)

- Decentralized Autonomous Organizations: A New Way of Governance (April 26th)
- Decentralized Autonomous Organizations (DAOs) represent a new way of organizing and executing group decision making. Why should we consider using DAOs for governance, how can they help (or hinder) democracy and facilitate us produce a "fairer" system?

Guest Speakers:

Tim Lewis - DEVxDAO

DAOs: A New Way of Governance (English)
