 - **BTC for Business (Jan 31st and Feb 1st)**

Note: When available, full Presentation PDFs can be found in the Github Repo:
<https://github.com/CryptoCuriousPR/Presentations>
However, please note that some activities may not have included/required a PP presentation

The Metaverse

Week 1 - The Metaverse (Jan 10 and 11)

- "What is the Metaverse?" Is one of those questions whose answer depends on whom we ask. Some will say it's a virtual space related to Web 3.0, the next logical step in the evolution of the Internet and digital communications. Others will say it is a "scam" or even a billionaire's dystopian fantasy. However, "the Metaverse" as a concept is all of these things and much more.
- By the end of the workshop, the audience will be able to:
 - What is the "Metaverse"?
 - Where does the concept come from?
 - Why is it important?
 - What is the potential?
 - How can you participate?

PRESENTATION

Crypto Wallets and Basic Security

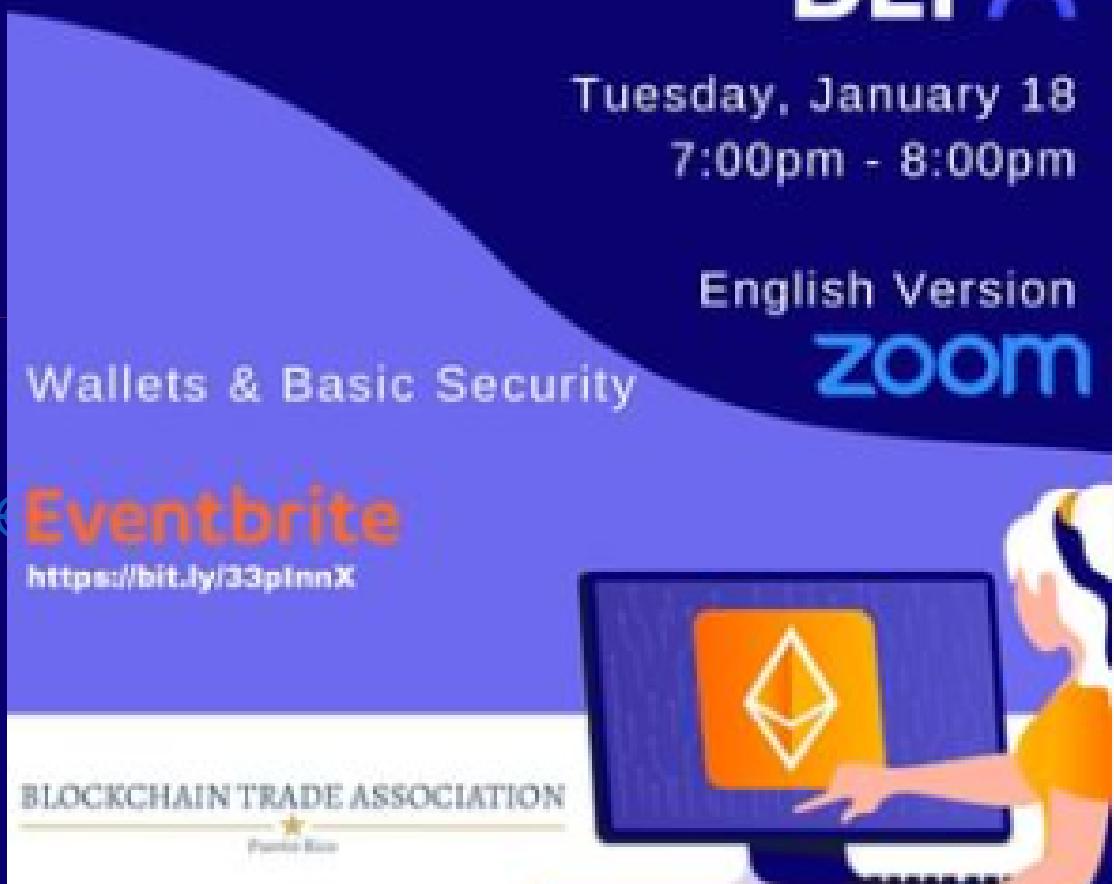

- Week 2 - Crypto Wallets and Basic Security (Jan 17 and 18)
- In order to enter the world of crypto assets, you need a wallet. But unlike "tangible" wallets, digital ones can be very confusing. In this webinar we'll answer some of the most common questions about wallets, in addition to discussing some ways you can protect yourself from bad actors and scams.
- By the end of the workshop, the audience will be able to:
 - Understand what a Wallet is and why they need one
 - Understand the meaning behind "not your keys, not your crypto"
 - Understand the difference between a "cold" and "hot" wallet
 - Choose the wallet that works best for them
 - Apply basic security principles when using their wallet

PRESENTATION

How to mint NFTs

- Week 3 - How to mint NFTs
- In this workshop, you will learn how to mint your first NFT. No experience required! You will learn about the most popular NFT marketplaces, how to use a "Testnet", and a step-by-step guide on how to create a collection on OpenSea.
- By the end of the workshop, the audience will be able to:
 - Understand the difference between "Mainnet" and "Testnet"
 - Connect their wallets to Polygon
 - Mint NFTs on Polygon
 - List their NFTs on OpenSea

Bitcoin for Business

- Week 4 - BTC for Business

- Bitcoin is a form of world currency, without borders. That means you can send and receive money from anywhere in the world without any exchange difficulties. It is a decentralized network, and has a fixed supply limit, that is, it's non-inflationary.
- The use of Bitcoin is fast, safe and completely under the control of the users. With the advances in technology, the currency enjoys low fees compared to credit cards or other services.
- We'll discuss the business use of Bitcoin, to answer to the question: How do I accept Bitcoin payments for my company?
- We'll talk:
 - Alternatives from simple to advanced
 - Point of sale systems
 - Payment processors
 - Web integrations
 - The Lightning Network
 - Taxes, traps and legalities
 - The most common scams and how to avoid them
- Guest lecturers
 - Erik Alvarez (spanish webinar)
 - Hannah Resenberg (english webinar)
